REPORT OF THE

TARIFF CHANGES

(Statement by the Deputy Prime Minister and Minister for Trade and Industry, the Rt. Hon. J. McEwen)

The Deputy Prime Minister and Minister for Trade and Industry, Mr. J. McEwen, today announced that new and amended customs duties would operate as from next Monday morning on imports of timber and organic pigments.

Mr. McEwen said that increased overall tariff protection for the timber industry would take the place of the temporary quantitative restrictions which have applied to the main types of imported timber pending the result of the Tariff Board's inquiries. This action was in accordance with recommendations made by the Tariff Board after full public inquiries.

The temporary duties on imports of organic pigments were as recommended by the Special Advisory Authority, Sir Frank Meere, C.B.E., who had been requested to conduct an inquiry into claims by the Australian industry that urgent action was necessary to protect the industry from import competition. Mr. McEwen said that the temporary duties, which would not apply to goods in direct transit to Australia on 11th December, 1963, would operate only until such time as the Government took action on a report from the Tariff Board. The matter had been referred to the Board for inquiry on 6th December.

The Minister advised that copies of both reports and details of the tariff changes could be obtained from Collectors of Customs in the capital cities or from the Department of Trade and Industry in Canberra.

PRESS STATEMENT

Statement by the Minister for Customs and Excise  
(Senator the Hon. Denham Henty)

DUMPING OF HARDBOARD

The Minister for Customs and Excise, Senator Henty announced to-day that dumping duty would be levied on hardboard imported into Australia at unfair prices.

Senator Henty said that he was satisfied after considering the findings of the Tariff Board on the dumping question that the Australian hardboard industry needed protection against dumped imports.

Hardboard imported on and after 20th January, 1964, would be subjected to dumping duties, if the f.o.b. export selling prices are lower than normal values.
